

Workshop

“Service Robotics & Smart Homes: How a gracefully adaptive integration of both environments can be envisaged?”

11th December 2008, from 9.00 – 16.30
Organised by the Companionable Project

Co-located with the International Congress on Accessible and Assistive Technologies for dependent people, ABLETECH'08, in Bilbao, Spain.

Time	Topic	Speaker
09.00 - 09.20	Welcome Address	Atta Badii, University of Reading
09.20 - 09.50	Keynote	Atta Badii, University of Reading
09.50 - 10.20	Senior Project	Antonio D'Amico, The Inclusion Alliance for Europe
10.20 - 10.50	CASBlIP Project	Larisa Dunai, Universidad Politécnica de Valencia
10.50 - 11.30	<i>Coffee Break</i>	
11.30 – 12.00	DIADEM Project	Senaka Fernando, Brunel University
12.00 - 12.30	CONFIDENCE Project	Igone Velez, CEIT
12.30 - 13.00	"Hearing at Home" Project	Arne Schulz, OFFIS
13.00 - 13.30	Semantic Reasoning for Intelligent Environments	Diego Lz. de Ipiña Gz. de Artaza, Universidad de Deusto
13.30 – 14.30	<i>Lunch Break</i>	
14.30 - 15.00	I2Home Project	Christina Buiza, Fundacion Ingema
15.00 - 15.30	SOPRANO Project	Gabriel Gaminde, ROBOTIKER-Tecnalia
15.30 - 16.15	Panel Discussion	
16.15 - 16.30	Closing Remarks	Atta Badii, University of Reading

Workshop Programme Co-Chairs:

Atta Badii (atta.badii@reading.ac.uk), Carmen Pastor (carmenp@robotiker.es),
Daniel Thiemert (d.thiemert@reading.ac.uk), Leire Zarate (lzarate@robotiker.es)
